This specification is approved for use by all Departments and Agencies of the Department of Defense.

The requirements for acquiring the product described herein shall consist of this specification sheet and MIL-DTL-38999.

### NOTES:

1. Dimensions are in millimeters. Inch equivalents are given for information only.
3. Panel thickness: 3.2 - 1.58.
4. O-ring material: See requirements.
5. C and J dimensions define feature required for proper fit in type E panel.
6. F diameter defines thread start.
7. This dimension applies to sizes 17, 19, and 21 only (C and G diameters are the same).
8. Countersink may be incorporated to accept accessory configuration in accordance with MIL-DTL-38999.
9. Classes J and M should not be used when critical connector to panel bonding (below 10 millivolts) is required.
10. For classes J and M only, overall shell length is increased to 33.0 mm (1.300 in) max.
11. For classes J and M only, surface finish for the MIL-DTL-38999/28 hex nut supplied with the connector shall be the same finish as that specified by the connector class designator, or may be unplated.
12. The specified red band location is measured from the front edge of the shell to the back edge of the red band.

REQUIREMENTS:

Dimensions and configuration: See figure 1. Interface dimensions shall be in accordance with MIL-DTL-38999.

This connector mates with MIL-DTL-38999/26.

O-ring material shall be in accordance with MIL-DTL-25988, Type 1, Class 1, Grade 60.

Hex nut in accordance with MIL-DTL-38999/28 shall be provided with jam-nut receptacle.

For insert arrangements: See MIL-STD-1560.

Connector accessories: See SAE-AS85049.

Part or Identifying Number (PIN) example:

\[
\begin{array}{cccccccc}
D38999/ & 24 & W & A & 35 & P & N \\
\text{DoD number prefix} & & & & & & \\
\text{Specification sheet number} & & & & & & \\
\text{Class} & & & & & & \\
\text{Shell size code} & & & & & & \\
\text{Insert arrangement} & & & & & & \\
\text{Contact style} & & & & & & \\
\text{Polarizing positions} & & & & & & \\
& & & & & N & \text{is required for normal position} \\
& & & & & & \\
\text{Class F is not for Navy use and is inactive for Air Force new design use.} & & & & & & \\
\end{array}
\]

NOTE: The term PIN is equivalent to the term (part number, identification number, and type designator) which was previously used in this specification.

Qualification required: The activity responsible for the qualified products list for this specification sheet is DLA Land and Maritime-VQ, P.O. Box 3990, Columbus, Ohio 43218-3990.

Amendment notations. The margins of this specification are marked with vertical lines to indicate modifications generated by this amendment. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notation.
