PERFORMANCE SPECIFICATION SHEET

CONNECTORS, COAXIAL, RADIO FREQUENCY
(SERIES TNC (UNCABLED – RECEPTACLES, SOCKET, JAM NUT MOUNTED, CLASS 2)

This specification is approved for use by all Departments and Agencies of the Department of Defense.

The requirements for acquiring the product described herein shall consist of this specification sheet and MIL-PRF-39012.

NOTES:
1. Dimensions are in inches. Metric equivalents are given for information only.
2. For dimension A and B, see table I.
3. All undimensioned pictorial configurations are for reference purposes only.
4. Wrench flats to accommodate standard wrench opening per ASME B107.100.
5. Full threads to within .063 (1.60 mm) of shoulder; 1 1/2 maximum uneven threads to shoulder.
6. There shall be a solid barrier in the socket between the pin entry and the solder pocket to prevent solder wicking.

FIGURE 1. General configuration.
NOTES:
1. Dimensions are in inches. Metric equivalents are given for general information only.
2. All undimensioned pictorial configurations are for reference purposes only.
3. N dimension applies to that portion (if applicable) of the dielectric which protrudes beyond the metal shoulder (or reference plane) by dimension K.

FIGURE 2. Mating dimensions for socket terminations.

ENGINEERING DATA:

Nominal impedance: 50 ohms.

Frequency range: 0 to 11,000 MHz.

Voltage rating: 500 volts rms maximum working voltage at sea level; 125 volts rms maximum at 70,000 feet.

Temperature rating: -65° to +165 C.

REQUIREMENTS:

Design and configuration: See figure 1.

Force to engage and disengage:
   Longitudinal force: Not applicable.
   Torque: 2 inch-pounds maximum.

Coupling proof torque: Not applicable.

Inspection conditions:
   Coupling torque: 4 to 6 inch-pounds.

Mating characteristics: See figure 2 for dimensions.
   Center contact (female):
      Oversize test pin - .057 inch diameter minimum (nonclosed entry contacts only).
      Insertion depth - .125 inch minimum.
      Number of insertions – 1.

Insertion force test: Steel test pin diameter .054 inch minimum.
   Test pin finish: 16 microinches.
   Insertion force: 2 lbs maximum.
Withdrawal force test: Steel test pin diameter .052 inch maximum.
Withdrawal force: 2 oz. minimum.
Test pin finish: 16 microinches.

Hermetic seal: Not applicable.

Leakage: Not applicable.

Insulation resistance: MIL-STD-202-301, test condition B. 5,000 megohms minimum.

Center contact retention:
- 6 lbs minimum axial force.
- 4 inch-ounces radial torque minimum.

Voltage standing wave ratio (VSWR): Not applicable.

Connector durability: 500 cycles at 12 cycles per minute maximum. The connector shall meet the mating characteristics and force to engage and disengage requirements.

Contact resistance: In milliohms maximum.

<table>

</tbody>
</table>

Dielectric withstanding voltage: MIL-STD-202-301. 1,500 volts rms minimum at sea level.

Vibration, high frequency: MIL-STD-202-204, test condition B.

Thermal shock: MIL-STD-202-107, test condition B, except high temperature shall be +200°C.

Moisture resistance: MIL-STD-202-106. No measurements at high humidity. Insulation resistance shall be at least 200 megohms within 5 minutes after removal from humidity.

Corona level:
- Voltage: 375 volts, minimum.
- Altitude: 70,000 feet.

RF high potential withstanding voltage:
- Voltage and frequency: 1,000 volts rms at 5 MHz.
- Leakage current: Not applicable.

Cable retention force: Not applicable.

Coupling mechanism retention force: Not applicable.

RF leakage: Not applicable.

Insertion loss: Not applicable.
Group Qualification: See table II.

Part or Identifying Number (PIN): M39012/31- (dash number from table I).

Amendment notations. The margins of this specification are marked with vertical lines to indicate modifications generated by this amendment. This was done as a convenience only and the Government assumes no liability whatsoever for any inaccuracies in these notations. Bidders and contractors are cautioned to evaluate the requirements of this document based on the entire content irrespective of the marginal notations.

Referenced documents. In addition to MIL-PRF-39012, this document references the following:
