

ADOPTION NOTICE

SAE AS5198, "Fitting, Tee, Flared to Pipe on Run," was adopted on 29 September 2000 for use by the Department of Defense (DoD). Proposed changes by DoD activities must be submitted to the DoD Adopting Activity: Commander, Defense Supply Center, Columbus, D3CC-VAI, 3990 East Broad Street, Columbus, OH 43216-5000. DoD activities may obtain copies of this standard from the DoDSSP, Standardization Document Order Desk, 700 Robbins Avenue, Building 4D, Philadelphia, PA 19111-5094. The private sector and other Government agencies may purchase copies from SAE International, 400 Commonwealth Drive, Warrendale, PA 15096-0001.

SAE AS5198 should be used instead of MS20826D, which was cancelled on 29 September 2000.

Certain provisions of the design characteristics of this standard (screw threads, hexagon sizes, and undercut dimensions) are the subject of International Standardization Agreement ASCC AIR STD 17/15. When revision or cancellation of this standard is proposed, the departmental custodians will inform their respective departmental standardization offices so that appropriate action will be taken respecting the international agreement concerned.

Note: To the users of this document, it is recommended that the use of low alloy steel and cadmium plating be used only when other materials and finishes specified in the document cannot meet performance requirements.
