Dear Mr. Hellwig:

Re: VQ(VQE-13-025511), Notification of Qualification Removal, MIL-PRF-19500P, FSC 5961; CAGE: 34156

It has come to the attention of this office that the qualification listed below is invalid. This is due to the latest performance specification sheet MIL-PRF-19500/601, Revision J, does not contain a "non-rad" part number device. Consequently, the QML was updated on November 27, 2012 to remove the listing below. Presently there is an open project to address this, however; until it is approved and dated, this qualification is void.

A re-instatement letter will be forwarded once it is dated and the Qualified Manufacturers List will be updated to reflect the new part number. The effective date of this removal is November 27, 2012.

Government Designation	ESD Class	Manufacturer Designation	Test Report Reference	Prf Spe	Manufacturer Name and Address
V 2N7261	1B	CEJJ	19500-3681-13	/601	Same as above
					Plant 2: Tower JAZZ Semiconductor 4321 Jamboree Rd. Newport Beach, CA 92660 (Wafer Fabrication)
V Includes JANTXV quality level only					

If you have any questions please call Mr. DelloStritto at 614-692-0616.

Sincerely,

/SIGNED/
