May 21, 2013

Mr. Mark McNulla  
 Aeroflex Metelics  
 9 Hampshire Street  
 Lawrence, MA 01840

Dear Mr. McNulla:

Re: Notification of Qualification Removal, MIL-PRF-19500P, FSC 5961; VQ (VQE-13-026433; CAGE: 52GC4; Control #039606.

This revises letter number VQ-13-025993 issued on March 13, 2013 to accurately state reason for qualification status removal.

Your qualification listings for the UBC package under the performance sheets listed below are removed. The action is due to your failure to submit the required qualification testing data in support of a ceramic lid construction in UBC packages. To obtain qualification listing for the devices shown below, Aeroflex Metelics must demonstrate successful passing of sample-based tests per Table E-III, item 2.a. of MIL-PRF-19500P, amendment 1, utilizing a JANTXV, or lower quality level, inspection lot.

Once the qualification data is received and is found acceptable, a new test report number along with applicable part numbers will be added to the QML. The effective date of this removal is March 13, 2013.

Government Designation	ESD Class	Manufacturer Designation	Test Report Reference	Prf Spec	Manufacturer Name & Address
S 2N2221AUBC S 2N2222AUBC	3A	CHRC	19500-3667-12	/255	Same as above  Plant (4): Texas Instruments Inc. 6412 U.S. Highway 75 South Sherman, Texas 75090  (Wafer Fabrication) /116
** N4148UBCCC ** 1N4148UBCD	3B				Plant (2): Aeroflex-Metelics East 55 Grenier Field Road Londonderry, NH 03053 (Wafer Fabrication)

\*\* Includes JAN, JANTX, & JANTXV quality levels only
