

**Specification Details:**

Specification: MIL-PRF-31032  
 Title: Printed Circuit Board/Printed Wiring Board  
 Federal Supply Class (FSC): 5998  
 Conventional: No  
 Specification contains quality assurance program: Yes  
 MIL-STD-790 Established Reliability & High Reliability: No  
 MIL-STD-690 Failure Rate Sampling Plans & Procedures: No  
 Weibull Graded: No  
 Specification contains space level reliability requirements: No  
 Specification allows test optimization: Yes

**Contact Information:**

DSCC Office of Primary Involvement: Electronic Devices Team, DSCC-VQE  
 Primary DSCC-VQ Contact: 614-692-0627, e-mail: vqe.ls@dla.mil  
 Secondary DSCC-VQ Contact: 614-692-0631, e-mail: vqe.bw@dla.mil

**Notes:**

If a manufacturer desires to have test data considered for qualification, it must be certified and meet all qualification test requirements of MIL-PRF-31032 and the applicable associated specification.

The listing of printed board manufacturing lines in the QML applies only to printed boards produced in the plant(s) specified herein. Therefore, only those printed boards that have been manufactured and tested on the certified/qualified lines listed herein can be supplied as QML printed boards.

DSCC contacts for QML companies can be located in the file 31032 main points-of-contact<sub>2</sub> at website:  
[http://www.dsccl.dla.mil/offices/sourcing and qualification/offices.asp?section=VQE](http://www.dsccl.dla.mil/offices/sourcing%20and%20qualification/offices.asp?section=VQE)

QML is a definition of a manufacturer's verified capabilities. Manufacturers may use the add-on qualification process to qualify capabilities that are not currently listed on the QML. The user is encouraged to contact the manufacturer or DSCC to make arrangements for QML availability.

The following abbreviations are used in this listing:

Ag: Silver  
 Au: Gold  
 CAGE: Commercial and Government Entity (Code)  
 Cu: Copper  
 ENIG: Electroless Nickel Immersion Gold  
 HASL: Hot Air Solder Level  
 ImmAg: Immersion Silver  
 IR: Infrared  
 LPI: Liquid Photoimageable  
 MIX: Mix of SMT and THM  
 Ni: Nickel  
 OSP: Organic Surface Protection  
 Pb: Lead  
 Pd: Palladium  
 PTH: Plated Thru Hole  
 SMOBC: Solder Mask Over Bare Copper  
 SMT: Surface-Mount Technology  
 Sn: Tin  
 THM: Through-Hole Mounting
