September 24, 2014

Mr. Darrel Block
Spacecraft Components Corporation
3040 N. Clayton St.
North Las Vegas, NV 89032

Dear Mr. Block:

Re: Qualification, MIL-DTL-38999, VQP-14-028626, Control Number 044287

This office received your email dated September 19, 2014 requesting the addition of **Class F** parts based on your qualification of Class R parts. The rationale given for this addition is that Class R require a longer duration salt spray test but is otherwise identical to Class F. After review, request was found to meet the requirements of our qualification program and the subject military specification. **QPL-38999 will be modified to add Class F to Series I, II & III protective covers as well as D38999/22 dummy receptacles.**

A detailed listing of the connector type under the Military Specification Sheet will be listed on QPL-38999. This qualification is subject to the conditions stated in DoD 4120.24-M and SD-6.

Because we are held responsible for the accuracy and currency of this QPL, please let us know if your company discontinues production of these products. If you have any questions, please contact Mr. Alex Baillieul by email at alexander.baillieul@dla.mil.

Sincerely,

/SIGNED/

JOSEPH GEMPERLINE
Chief
Sourcing and Qualifications Division
