January 8, 2013

Mr. Michael Burke  
Design Engineer - Optical Fiber Cable  
General Cable Industries, Inc.  
20 Forge Park  
Franklin, MA 02038

Dear Mr. Burke:

Re: Requalification for Moving the Fiber Coating Process from Brand-Rex to Franklin, MA;  
MIL-PRF-49291; M49291/6-05 and/7-02; FSC 6010; VQP-13-025640; Control Number  
038124

We received your test report # 49291-3615-12 along with the test data for the requalification for the subject specification. The information was reviewed and found to meet the requirements of MIL-PRF-49291. Therefore, your request to coat the fibers at your Franklin, MA facility using the same materials is granted. At this point in time, no changes will be made to QPL-49291, since the Franklin, MA General Cable facility is currently listed as a manufacturing plant on QPL-49291 and per your request, you would like Brand-Rex to remain on QPL-49291 for now.

Because we are held responsible for the accuracy and currency of this Qualified Products List, please notify this Center if your company discontinues production of the products. No changes are to be made in the design and construction of the products qualified without approval of DLA Land and Maritime, VQP.

If you have any questions concerning this letter, please contact Cheri Rida, 614-692-2152 or email [Cheri.Rida@dla.mil](mailto:Cheri.Rida@dla.mil).

Sincerely,

/SIGNED/

ALAN J. WILL  
Chief  
Passive Devices Branch
