Dear Mr. Dzigan:

RE: Removal of Qualification for Expiration; MIL-PRF-55110 and MIL-PRF-50884; FSC: 5998; CAGE Code: S4451; VQE-16-030753 / CN052555

Eltek Ltd.' qualifications listed below have expired. Therefore, Eltek Ltd. is hereby removed from the Qualified Products List (QPL), military specification MIL-PRF-55110 and MIL-PRF-50884, for the following items:

TYPE AND BASE MATERIAL	QUALIFICATION REFERENCE NUMBER
Type 4, Adhesiveless Material	50884 3885 080616 <i>Expired</i>
Type 3, GI Material	55110 3884 080616 <i>Expired</i>

In accordance with paragraph A.4.5.4 of MIL-PRF-50884F and MIL-PRF-55110H, requalification is not required as long as the manufacturer maintains a listing for an equivalent technology through QML-31032. Since Eltek Ltd. has not obtained qualification through QML-31032, the above listings have been removed from the Qualified Products List, QPL-50884 and QPL-55110. A stop shipment/stop production is effective for all product covered under these qualifications unless approval is granted by DSCC-VQE to complete existing contracts.

Eltek Ltd. is required to maintain traceability of all data, including coupons and microsections, for a period of 3 years, per paragraph A.3.9 of MIL-PRF-50884F and MIL-PRF-55110H. Should you have questions, please contact Mr. Robert Puckett at 614-692-0625 or vqe.rp@dla.mil.

Sincerely,

RAYMOND L KOLONCHUK
