Extent of Qualification Qualification of a particular board type shall be extended to cover all conductor patterns of that same board type produced. Qualification of type 1 boards shall be extended to cover type 2 boards. Qualification of type 2 boards shall be extended to cover type 1 boards. Qualification with type GB base material shall be extended to cover types GB and GH base materials. Qualification with type GR base material shall be extended to cover type GP base material. Qualification with type GY base material shall be extended to cover types GT and GX base materials. Qualification with type SC base material shall be extended to cover type GC base material. Qualification with type GX base material shall be extended to cover type GT base material. Qualification with types AF, BF, GM, or QI base material shall cover that material only.

- a. The last six digits of the Qualification Reference Number (QRN) is the qualification expiration date in "mmddy" format (e.g. 55110-1234-042211 expires 04/22/2011).
- b. An asterisk (*) adjacent to the QRN denotes that the product was tested for and meets the etchback requirements.
- c. An exclamation (!) adjacent to the QRN denotes qualification through Appendix B of MIL-PRF-55110. There is no qualification expiration date. See Appendix B for detailed information about this company's capabilities.
- d. A pound sign (#) adjacent to the QRN denotes that the qualification vehicle was built using foil lamination technology. The specimen was tested for strength requirements.
